Pompano Beach, FL 33069

Dear John,

I wanted to take a moment to express my gratitude for your entire firm's dedication in making Tephford Park - Southgate Linear Park a success. Although the project was underway when I became involved, I was quickly assured that your team was knowledgeable and capable of the high quality of work expected for a landmark facility in the City of Tamarac. It was a pleasure to deal with professionals that know their job and are dedicated to performance. You reacted quickly to issues and I appreciate the communication system that continually kept me in the loop.

Again, I am very pleased with the final product and please feel free to use me as a reference in the future.

Thanks,

John F Neff  
Senior Project Manager
