Re: DiPompeo Construction Corporation

Dear Sir or Madam:

Philadelphia
Coral Gables
Dallas
Lake Placid
San Diego
San Francisco

As architects and landscape architects, we have recently collaborated with DiPompeo Construction Corporation on Intracoastal Park in Boynton Beach, Florida with a construction value of \$2 million and Volunteer Park in Plantation, Florida with a construction value of \$6 million. Intracoastal Park was completed in September of 2003 and Volunteer Park will be completed in the spring of 2005.

Intracoastal Park was completed on-time and on-budget allowing for contingencies that arose during the construction process. During construction, DiPompeo Construction showed serious regard for the schedule and the process, and John DiPompeo, Jr., the President, personally oversaw all phases of work as I know he will on your project. Workmanship on the Project was more than competent and everyone is pleased with the final product.

We are pleased to have worked with DiPompeo Construction and look forward to the successful completion of present and future projects.

Sincerely,

Kevin D. Might
